AirMini™ Solutions

Rewrite your bedtime story

ResMed.com/AirMini

AirMini: effective[1-4] compact therapy without compromise

Made by ResMed, you know that sleep therapy on AirMini Solutions will be just as good as the therapy delivered by our other market-leading devices - in a compact, friendly, easy-to-use and more appealing package.

AirMini Solutions provide effective[1-4] therapy at their most comfortable and mobile. You don't have to compromise between therapy performance, better health and freedom anymore.

HumidX™ waterless humidifier

Compact and discreet, HumidX* or HumidX Plus* is the ideal choice for patients looking to experience therapy comfort on the go and not only.

ActiveAir™

This crucial technology regulates airflow to keep pressure delivery stable and comfortable at all levels.

AirFit™ and AirTouch™ series of masks

AirMini is compatible with N20 and F20 series of masks, and the AirFit P10 for AirMini.

Start & Stop

With only one Start button, it's so easy to use your device every night.

Bluetooth connection

Just press the Bluetooth button, and synchronise your AirMini with your smart device.

AirMini App

A smart device app that allows you to manage your comfort settings and view your therapy progress. The AirMini App helps ensure you are swiftly set up for therapy.

* HumidX and HumidX Plus are only compatible with AirFit™ N20 and AirFit P10 for AirMini.

Power to go, freedom to move

Because AirMini Solutions can deliver effective[1-4] therapy without the bulk, you can take it from the bedside table to the hotel room - and even to the great outdoors. It's simply small, convenient and smart.

Freedom of choice

AirMini Solutions are available with a range of accessories and customisation options so that therapy can be personalised to suit various individuals' different needs and preferences.

These options include various algorithms, therapy modes, features, as well as mask shapes and styles and accessories.

Small

AirMini is the smallest[5] CPAP device ever manufactured.

Smart

The AirMini App allows you to customise your therapy comfort to your individual needs and view your progress with ease.

Proven[1-4]

AirMini features the same established algorithms as ResMed's AirSense range of sleep therapy devices.

Trusted[1-4] therapy made compact

Understanding your everyday needs

When it comes to your health, you shouldn't have to compromise on anything: comfort, ease-of-use, effective[1-4] therapy, humidification, performance, size and mobility. These are all the standard features you have the right to expect from your therapy, and that AirMini delivers.

Technology that serves you

We have developed a unique venting technology to deliver market-leading therapy, portable waterless humidification and uncompromised performance[6] to you, all in a small/light and lifestyle-friendly package.

Engage with your well being with the AirMini App

Track and manage your own sleep quality

With AirMini Solutions, you have access to ResMed's AirMini patient engagement app. Whether you're a new or trained user, the AirMini App allows you to track your sleep data and manage your therapy from the convenience of your smart device[6].
Very friendly and quick, with easy connection to your machine.

Get support at every stage of therapy

The AirMini App also provides coaching and timely personalised support, and gives you access to self-help tools to help you manage your therapy, care for your device and ease into treatment.

Download app
Install your AirMini App on your smart device[6]

Sync your AirMini
Press the Bluetooth button and activate the bluetooth option on your smart device

Adjust features
Adjust comfort features from your smart device (Ramp or EPR)

Track your sleep
Check out your sleep score every morning

Tips & coaching
Learn ways to improve your comfort and sleep better

Download the AirMini App now! ...and stay connected

Keeping you and your healthcare team connected, your detailed therapy data can be sent to your clinician/healthcare provider to review as part of your ongoing therapy management and care.

GET IT ON Google play

Available on the App Store

Travel accessories to make your journey easier

With a variety of optional accessories, the AirMini system is designed to suit your lifestyle. An external battery will let you travel in peace when you are on the move. A hard case offers protection – while a travel bag allows you to transport the entire AirMini system (tubing, mask, device and battery) with ease.

The AirMini mount system even allows your AirMini to be secured in a variety of bedside configurations for greater convenience and discretion.

Visit mySleep.resmed.com to discover all these accessories.
